Story of the Eiker-Hoff Cure for Consumption.

world, especially that portion of it devoted to medicine, was startled by the results study of the respiratory organs of man, and particularly had sought to fathom the THE EIKER-HOFF CUE mysteries of consumption, that he might be able to afford relief to suffering human-

The New York Journal heard of the won derful cures effected by Professor Hoff and resolved to prove the matter for itself. That paper sent a consumptive abroad at its own expense to test this discovery and to prove to the world that consumption is its own expense to test this discovery and to prove to the world that consumption is curable. The patient was selected from 160 other cases at New York's famous hosons who have been radically cured of Asthma by the Elker-Hoff Cure. Upital, the Vanderbilt Clinic. The presence of tubercle bacilli was fully established by eminent bacteriologi ts. Placed under treatment by Professor Hoff, the world-re-nowned lung specialist of Vienna, six guinea pigs were inoculated with this patient's sputum. All of them developed tuberculosis. and died.

After three months' treatment the Journal patient returned home completely cured.

Upon his return the New York Life Insurance Company issued a policy on his life. Later he married and at this time the New York Journal, in an extended account of the ceremony, certified to his cure. Full details of the cure, together with the

prescription, were published in the New York Journal, and a history of the case was embodied in a paper read before the Tuberculosis Congress and the Medico-Legal Society of New York by Doctor Carleton amon, the eminent lung apecialist. Among he other distinguished physicians who have figured in this remarkable case of cure and which were named in Doctor Simon's paper are: Doctors Daniel Cook, J. Mount Bleyer, Henry P. Loomis, B. F. Cline and Henry T. Brooks of New York City and Doctor Sylvester Willard and Sir William Broadbent of London

The Elker-Holf Cure is the outgrowth of this remarkable case. What it has accomplished is shown in part in the accompanying unsolicited testimenials, and those that are handed out with the free trial bottles. Ing unsolicited testimonials, and those that are handed out with the free trial bottles.

A more extraordinary feature of the Hoff Cure remains to be told. It is that in this remarkable discovery Professor Hoff this remarkable discovery Profess builded more wisely than he then knew. It builded more wisely than he then knew. It has been found that his cure, while directed primarily against Consumption, is just as efficacious and much more prompt in its action in cases of Asthma, Catarrh and Bronchitis. The Eiker-Hoff Cure has demonstrated that his prescription is a positive cure for these diseases, which are but the advance guards of Consumption, requiring but a few weeks at the most for their successful eradication. It has cured radically great numbers of people afflicted with these great numbers of people afflicted with these maladies, besides those suffering from coughs, colds and other disorders of the breathing organs of the human body.

In carrying out the bumane work inaugu-Company would invite attention to the extreme reasonableness of price, but one dollar (\$1.00) per month, of the Eiker-Hoff In a large number of cases a onemonth treatment effects a complete cure. THE EIKER-HOFF CURE is the latest and greatest discovery of Prof. Adolf Hoff, Vienna's world-famed lung specialist. It is a scientific preparation never before advertised, which, in the short space of six months and solely on merit, has attained widespread favor and unprecedented sale. It is not a patent medicine, but a nonsecret preparation manufactured under an open formula, given to the world for the benefit of suffering humanity. It is a clear, transparent and almost tasteless solution (prescribed in 6-drop doses), which does not derange, weaken, nauseate or affect the stomach. See that the BULL'S-EYE trademark, "Seal of PROF. HOFF," and fac-simile signature of the EIKER DRUG CO. is on every bottle.

Agency, Ia., Jan. 24, 1983.

My boy, aged nearly 7 years, has the asthma, he has always had weak lungs, and about a year ago he took the asthma, but our doctor said it was from his lungs, and that the bronchial tubes were all right. I am certain he was going into consumption. He had chills and fever and night sweats, and was losing flech so rapidly that he was nearly a frame himself. He besan taking Elker-Hoff Cure about one week after Christmas of 1962, and now he is so fat we hardly know him. His appetite is regular, and he has no chills and does not take cold easisy. He is gaining in strength every day. I cannot sar enough for your Elker-Hoff Cure. I believe he would not have lived long, as he was going down so rapidly, but he is so different now. I wish to see others benefited as well, so I send you three names and addresses, two asthma sufferers and one consumption. I could write a whole book if I had time on the good merits of this Cure. Please send sample bottles to the names inclosed and you will do a kindness to them which they will never forget.

Maiden, Mass., Jan. 19, 1962.

My case is a mild form of asthma, and I have been using powders and all kinds of medicine for about six years, but I find that your Elker-Hoff Cure has done me more good than all of them put together. I think I will be able to give you a better report by the time the second bottle is used up.

San Anionio, Tex., Jan. 12, 1993.

Will you neesse send me some more of the Eiker-Hoff Cute? I have enough to last for a few days. I am very gad to tell you that I am improving right along. I notice it plainly while I have been using this last bottle-my second. My case is one of long standing-over fifteen vears-and for the last year it has been a desperate case, with no earthly chance of being curred until I started your Eiker-Hoff Cure in November last. I have catarrh and a cold in my entire system, besides being afficted in the air passages of the bead and throat. My showels wete in an awful fix. I knew I am esting well, and I thank you for it.

WHAT A TRIAL BOTTLE WILL DO.

The one and whole object of this newspaper announcement is to show what trial bottles of the Elker-Hoff Cure will do. So certain are the results that the Elker Drug Company is perfectly willing to rest any possible future sales upon what can be demonstrated with these trial bottles. For this reason the following testimonials are taken at random from thousands in the possession of the Elker Drug Company. They could be extended indefinitely if further evidence were needed. Out-of-town readers and others may procure samples by mail, postpaid, by writing to the home office of the Elker Drug Company, 104 William st., New York City. Denver, Colo., Dec. 15, 1902.

I have taken the Elker-Hoff Cure you kindly sent me and think it is going to prove to be the medicine I need. I have taken it as directed for catarrh, and am feeling better than I have for a year. Should be glad to continue the treatment,

New Orleans, La., Nov. 18, 1992.

It is one month since I started to take the Elker-Horf Cure. My case is not consumption; it is CATARRH of the head and BRONCHITIS. As I think it is my duty to let you know the results of one months treatment. I must say they are gratifying in my case. My coughing and spitting is at least 50 per cent less than it was; my hearing was impaired that you hail to speak in a loud tone for me to hear and understand what you said. New I can hear everything in a whisper in the telephone. Hefore I could not hear the loudest voice in it. My appetite has improved 50 per cent, and hope that my next letter will be able to say that the results have been double to what they are now.

Please send me another bottle of your Elker-Horr Cure, for I am greatly improved in my CA-TARRHAL trouble of the howels and also of the head. THOMAS BARRETT, 221 Falke street.

I am taking your Eiker-Hoff Cure for CA-TARRHAI, effection, for which I have been troubled with for some verae and with such several that at times the air passages in the head confined to my bed for six months with bronchits, and since then I have had to use more precaution than ever, as every time I took cold would cough badly, which I felt confident was becoming serious, when I saw an article in one of the St. Louis papers, written on the Eiker-Hoff Cure, which I at once sent for and can say in all sincerity have never tried anything before that has proved so theroughly benedicial. I am looking forward to a permanent cure, in which case I feel I can be in the SMARY MORTON.

Dorchester, Mass., Jan. 15, 1903.

Your Eiker-Hoff Chre has done wonders in my case of bronchial catarrh, I being in a very dusty shop, it will take longer to get straightened up than those in other piaces. It has done what the doctors here could not do, and I have some now that I am taking. There is a person here by the name of Taylor to whom I gave a bottle, and it has cured him in good shape. He does not look like the same person. I am very glad to have it and don't want to be without it again.
